Smart Bottle Ink

1027R	General Purpose "Red", MEK base *For use in pour-in printers
1069K	"Black" carbon pigment retort ink
1072K	General Purpose "Black", Good adhesion on plastics
1080F	UV visible ink
1085B	General Purpose "Blue", MEK base *For use in pour-in printers
1087K	Alcohol resistant on glass "Black"
1113K	MEK Black returnable bottle ink. Condensation resistant after printing
1121K	General Purpose "Black" carbon ink
1304K	"Black" Super adhesive to plastics; PE, PP, PET
1311Y	High adhesion yellow soft pigment ink. Best adhesion to plastic substrates.
1404K	General Purpose "Black", Good performance in high temperature environments
1411K	"Black" rigid plastic ink with best adhesion to all plastics
1419K	General Purpose "Black", Low cost ink for use with UX-B160WG only *Not available in US/CAN*
4136K	MEK free "Black" for rigid plastics
4146K	MEK free "Black" for flexible plastics
4413T	High adhesion thermochromic ink "Black to Blue"
2081K	Fast drying, acetone ink containing 0% MEK.
2410E	Egg Shell "Pink", Acetone based ink
3430E	Egg Shell "Blue", Ethanol based ink
3407K	Ethanol Based "Black" ink. Superior adhesion to plastics

Smart Bottle Makeup

S1018	Used with 1072K, 1080F, 1311Yci, 1304K, 1412K
S1069	Makeup for 1069K
S1084	Makeup for 1121K
S3078	Egg Shell Pink makeup, Ethanol based
S3407	Makeup for 3407K
S3430	Makeup for 3430E
S2081	Acetone makeup
S2410	Make up for 2410E
S4136	Makeup for 4146K, 4136K
S4413	Makeup for 4413T

Pour-In Ink

JP-B82	General Purpose "Black", MEK base
JP-E78	Egg Shell "Pink", Ethanol base
JP-F80A	UV Visible Flourescent (invisible)
JP-K101	Alkali Washable "Black" for glass, MEK based
JP-K106	Carbon "Black", MEK based, Retort resistant. Fade resistant.
JP-K28	Retort & Chemical resistant "Black", MEK base
JP-K304A	"Black" Super adhesive to plastics; PE, PP, PET
JP-K407	Ethanol Based "Black" ink. Superior adhesion to plastics
JP-K67u	General Purpose "Black", MEK base
JP-K69	General Purpose "Black", MEK Base, Chrome Complex free dye
JP-K72u	General Purpose "Black", Alternative to JP-K67. Where static is present.
JP-K77*	"Black", Acetone base, fast dry (6 month shelf life)
JP-K81A	General Purpose "Black", Acetone base, fast dry (18 months shelf life)
JP-K83	Heat curable (permenant) "Black" Mil Spec 202F Method 215E
JP-K86	General Purpose "Black", Acetone base, fastest drying ink
JP-K87	Alcohol resistant on glass "Black"
JP-K88	"Black" Highly adhesive to PE plasitcs, MEK base
JP-R76	High visiblility on lighter substrates. Can still been seen on most darker subsrates
JP-T75	Thermocromic "Black to Blue"
JP-W406	TiO2 Pigmented white ink. Resists "yellowing"
JP-W89	TiO2 Pigmented white ink
JP-Y108	Organic "soft" pigment yellow. More opaque than JP-Y118
JP-Y109	Organic "soft" pigment yellow. Adhesion to glass, condensation resistant
JP-Y311A	High adhesion yellow soft pigment ink for plastic substrates.

Pour-In Makeup

TH-101	Makeup for K101
TH-109	Makeup for Y109
TH-18u	Use with K72, K87, K106, K304A, Y108, Y311A, O311ci
TH-406	Makeup for W406
TH-69	Makeup for K69
TH-71	Makeup for K88

TH-73u	Use with W73, W89
TH-75	Makeup for T75
TH-76	Makeup for R76
TH-77	Makeup for K77
TH-78A	Makeup for E78A
TH-80u	Makeup for F80A
TH-81u	Use with K81, K408ci
TH-82u	Makeup for B82
TH-83	Makeup for K83
TH-83ci	Makeup for K83
TH-84u	Makeup for Y91
TH-86	Makeup for K86
TH-TYPE-A	Use with K28, K67u, R27, G27
TH-TYPE-C	Use with B27, B85
TH-TYPE-F	Makeup for K407

Cleaning Solutions

CL-1000	All EXCEPT: B95-FT, K83, W73, W89
CL-83	Use with K83
